**DETAILED ACTION**

***Election/Restrictions***

1. Newly amended claims 15-18 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The originally elected invention was drawn to a photoresist layer. All claims have now been amended to a scanning electron microscope. This invention is clearly separate and distinct from the originally claimed, and elected, invention.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 15-18 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Response to Amendment***

2. No claims remaining pending in the instant application that are drawn to the elected invention. In view of this, there are no rejections currently in the application.

***Conclusion***

3. Applicant's amendment necessitated the altered ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
